DETAILED ACTION

Allowable Subject Matter

Claims 2-3 and 5-12 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claim 2, the pertinent prior art fails to teach or suggest an electroluminescent lamp integrally molded to a bolster engaging and concealing an opening in a door trim panel wherein the lamp illuminates the door trim panel.

With respect to claim 10, the pertinent prior art fails to teach or suggest a method of making an automotive interior component by placing an electroluminescent lamp between mold sections, injecting a molten polymer resin through a gate to fill the mold, solidifying the resin and ejecting the automotive interior component.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Cowelchuk et al. (US Patent 7,156,437) teaches an injection molded bolster, but does not teach the use of an electroluminescent lamp. Flores et al. (US 2006/0271261) teaches an electroluminescent light source attached to a door, but does not teach it being a bolster concealing an opening or being injection molded to become an integral bolster.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
